

PREVENTIVE SCREENING ACCESS STEPS – BCBSTX MOBILE APP

1. Team Members will select the “Well OnTarget” link from the BCBSTX Mobile App home screen to be transferred to the Well OnTarget mobile portal.

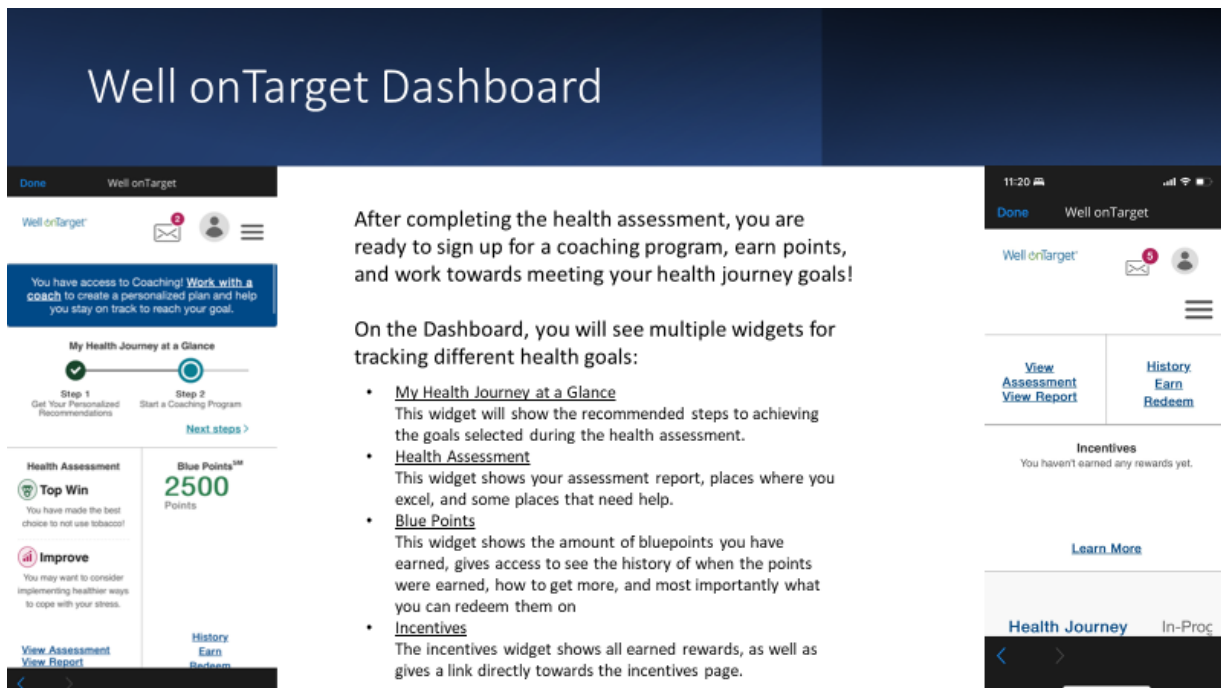

The Blue Access for Member's app icon looks like this and is accessible through the Apple app store and Google Play store

To Access Well onTarget through the mobile app, login to Blue Access for Members using the same login information you would on the desktop website. On the member dashboard, you will see a link to Well onTarget. After selecting the link, it will automatically log you in to your fitness account.

note: you can also download our app by texting BCBSTXAPP to 33633

2. On the home page of the Well OnTarget mobile site, the Team Member will finger scroll down to the Incentives section and select “Learn More.”

Well onTarget Dashboard

After completing the health assessment, you are ready to sign up for a coaching program, earn points, and work towards meeting your health journey goals!

On the Dashboard, you will see multiple widgets for tracking different health goals:

- **My Health Journey at a Glance**
This widget will show the recommended steps to achieving the goals selected during the health assessment.
- **Health Assessment**
This widget shows your assessment report, places where you excel, and some places that need help.
- **Blue Points**
This widget shows the amount of bluepoints you have earned, gives access to see the history of when the points were earned, how to get more, and most importantly what you can redeem them on
- **Incentives**
The incentives widget shows all earned rewards, as well as gives a link directly towards the incentives page.

3. After the Team Member arrives to the Rewards section after selecting learn more, the Team Member will click on the “Incentives” notation, then select “Incentive History.” From there, the annual preventive screening information will be displayed for both regular physicals/wellness exams and Catapult Virtual Checkups.
